Product Description

Smart bird feeder A solar-powered app control for outdoor feeding Q40 ABS+PC plastic

Product Description

* Intelligent AI reliably identifies over 10000 birds

Identify over 10000 species of birds from around the world. Directly query detailed information about birds through the app.

The identified birds can be collected and viewed at any time

* Bird detection notification

Automatically notify you when birds pass by, and you will never miss any bird visitors.

* Automatically capture bird videos

Automatically capture exciting moment videos and store them on TF cards or cloud storage. Watch and capture more interesting moments through the replay function. Supports 128G storage cards.

* 5MP high-definition night vision camera

Wireless Battery Powered Security Camera, Black and white night vision, 130 ° wide-angle lens, 5 million pixels, 5MP streaming online video. Low power devices, with an ultra long standby time of 3-6 months.

* Charging with solar panels

Equipped with a built-in solar panel, it can charge up to about 2000mAh per day, and with a 4000mAh built-in battery, it can hardly be charged on a daily basis.

* Observe wild birds anytime and anywhere through the app

* Unique exterior design

1.5L capacity birdhouse, The ABS+PC plastic with IP65 waterproof design and UV resistance provides a very reliable feeding space for birds.

* Device sharing function

Support 2.4G WiFi, Free P2P cloud service, We can take proactive photos and videos, all of which are automatically taken and recorded. The identified birds will be recorded, and the devices can be shared infinitely.
